Calling ALL Surgeons!!

Thursday evening and Sunday morning seminars are specifically designed for ALL SURGEONS.

Thursday will focus on a variety of clinical surgeon challenges. Talks will center on strategies and tactics designed to effectively cope with these challenges. Case examples will be presented for discussion on how to deal with them effectively and professionally.

Sunday discussion topics will cover skills critical for anyone practicing in the medical field.

Concepts like empathy, accountability, positivity, resilience, communication, and time management when performed properly can lead to thriving careers and prevent burnout. This workshop will incorporate highly engaging and interactive group discussions.
